## 1 Contents

2	Introduction .....	3
2.1	Change History .....	3
3	Release Availability .....	3
3.1	iLOQ Interface .....	3
4	New Features in iLOQ since last version .....	4
4.1	Version 1.1.0.2145 .....	4

## 2 Introduction

The iLOQ Interface is a middleware application that enables communication between iLOQ Manager API services with Security Expert using a SOAP interface. Events are read from both systems and are pushed into each one so that iLOQ and Security Expert are synchronised automatically through the processes and operations conducted in the middleware application.

### 2.1 Change History

Revision	Date	Author	Description/Change
A	06 December 2021	Nasir Tahir	Document Creation
B	05 September 2023	Nasir Tahir	Documentation Update
